## Re-Engage!

America and the World after Bush, *An Informed Citizen's Guide*

Helena Cobban

"An impassioned, thought-provoking, and accessible brief from a highly esteemed journalist on how all of us—as individuals—can act to help better our country and world."

—Lee H. Hamilton,

President and Director, Woodrow Wilson Intl. Center for Scholars

"Helena Cobban provides an earnest and inspiring guidebook for how to restore America's political and moral position in the world."

—Vartan Gregorian, President, Carnegie Corporation of New York

Since 9/11, journalist Helena Cobban has traveled to 18 foreign countries on four continents and witnessed first-hand the reputation of the United States degrade as it has followed a "control paradigm"—the unilateral domination of world affairs through military means that tries to keep the lid on insecurity without addressing root causes or protecting human rights.

In this inspiring, insightful, and above all, useful guide, Cobban proposes moving away from this policy to one of global inclusion that seeks to repair the U.S. relationship with other countries, recommit the United States to effective participation in the United Nations and other multilateral institutions, and ground U.S. foreign policy firmly in the principle of human equality.

A long-time Christian Science Monitor contributor, Cobban has heard how deep the desire is among people in China, sub-Saharan Africa, the Muslim world, Europe, and elsewhere for the United States to rejoin the world community on a sound and cooperative basis. In heartfelt, accessible prose with highly readable tables, graphics, websites, and other resources, *Re-Engage!* shows how we can rebuild our role as neighbors, as a country, and as a trusted international partner.
